

HISTORICAL OVERVIEW

Founded in 2010, Intel fire group objective and mission is to deliver a compliance training and assessment in relevance to Section 36 of the Fire Risk Reduction Rules, 2007 by professionals having above the standard qualifications and as per Section 37 of the rules.

Our aim is to create a bridge between companies, organizations and cultures to bring the best fire safety products and services to defense, oil and gas, aviation, flower, transport, communication and many other companies. Our commitment to continuous improvement as a quality management strategy means that the services we offer are reviewed regularly in terms of our Articles of Association and the needs of our members and clients.

CORPORATE POLICIES

We pride ourselves with the following strategic policies to serve our clients with at most professionalism:

- Quality
- Health, Safety and Environmental
- HIV AIDS
